Under a Stratco Outback you are protected from the elements, expanding your possibilities for entertaining, storage, an all-weather play area for kids or simply enjoying your garden.

INVEST IN MARKET LEADING QUALITY

Available in a wide range of high gloss colours to complement your home, the Stratco Outback features the sturdy Outback Deck, a steel roofing sheet with a clean, smooth underside that has a 'ceiling-like' finish. It can span up to 4.5 metres, allowing the support beams to be placed well apart for a clean, uncluttered finish. The structure is formed with strong and elegant, chamfered and fluted beams and columns. Matching gutters tie the system together, while hidden fixing points and concealed brackets complete the smooth and refined appearance.

GENUINE PEACE OF MIND

Your durable Stratco Outback will be a lasting and satisfying investment giving you many years of enjoyment.

It is protected by our own 15 year structural warranty*, and when installed by an Authorised Outback Dealer you are covered by a one year installation warranty. The Stratco Outback range has been thoroughly engineered and tested to comply with all relevant Australian Standards. The major components are made from strong high tensile steel, while the fixings and brackets are galvanised for a long useable life.

OUTBACK GABLE

EVER POPULAR PITCHED ROOF CHARM

OUTBACK GABLE

Exhibiting a strong presence and style, the pitched roof of an Outback Gable Verandah, Patio or Carport is endowed with an open feel that will enrich your home and outdoor entertainment area. The Outback Gable is available as a freestanding unit or attached to the home. When you combine it with flat roof or pergola sections then the prominent pitched roof becomes the attractive central hub of your outdoor lifestyle. You can also enjoy natural filtered light by incorporating Outback Rooflites in the Outback Deck. Available in Multispan or Clearspan designs to suit your design choices.

MULTISPAN FOR COLOUR AND LIGHT FLEXIBILITY

An Outback Multispan Gable features purlins that are placed over the rafters in the roof. This supports the cladding, which can be the smooth Outback Deck, light and airy polycarbonate, or classic corrugated steel. The gable roof can span up to 6.6 metres wide on a Multispan design giving you a family-friendly hub.

CLEARSPAN FOR SMOOTH BEAUTY

The Outback Clearspan Gable uses the Stratco exclusive Outback Deck, a remarkably strong roofing material that does not need additional support. The Clearspan Gable can span an impressive 7.5 metres wide. So you will really enjoy your outdoor lifestyle and big family occasions under this magnificent uncluttered gable.

Clearspan for smooth ceiling-like appearance using Outback Deck.

MAINTENANCE: Regular maintenance is essential to maintain the good looks of all Stratco steel products and to ensure you receive the maximum life-span possible in your area. Washing with clean water must be frequent enough to prevent the accumulation of dust, salts, and pollutants or any other material that will reduce the life of the product. Stratco steel products that are regularly washed by rain require no additional maintenance. No Stratco steel structure or materials are recommended for use over, or in close proximity, to swimming pools or spas. No material that retains water (such as dirt or paving sand) should be placed against the columns. Care must be taken when determining the location of Stratco steel products so that they are not placed in close contact with sources of pollution or environmental factors that could affect the life of the steel. Refer to the 'Selection, Use and Maintenance' brochure for more information.
